

QUALITY AND FOOD SECURITY POLICY

NUTRICOR is a Company dedicated to:

“Design, storage and sale of premixes”

The Management takes into account the complex and evolutionary character of premixes manufacture and the required expectations and guarantees by our customers.

For that reason our desire is that the company becomes well known by all its employees, customers and the people in general, in all its decisions and activities, as a responsible and respectful company with the quality and food security in all the products designed and sold.

With this concern of improving, the Management establishes, states and takes over the following commitments:

- To implement, keep and improve a Food Quality and Security Managing System that turns to be a dinamizing factor of company management.
- To strictly fulfill the legal and regulatory requirements as well as any voluntary standard the company decides to accomplish.
- The contract requirements, wishes and expectations of our customers will be the criteria to set the activity guideline of the company.
- To keep an exhaustive traceability.
- To promote the aim of continuous improvement as the daily work basis, looking for the most efficient and effective solutions.
- Provide our business colleagues and employees the necessary means to maintain and increase the confidence in NUTRICOR.
- Establish measured objectives assuring the service safety.
- Provide all the necessary resources to implement this policy.

NUTRICOR will ensure that this policy is publicly available so that any member of this organization, customer, supplier or visitor will be able to point out any improvements to do or any deficiencies, which will be analysed and solved the best way possible.

This Quality and Food Security Policy is spread, assumed and practiced by all levels of the company.
