EFFECTIVE FOR YOUR ANIMALS, PROFITABLE FOR YOU

NEUMOSAN

THE NATURAL ALTERNATIVE FOR SUPPORTING RESPIRATORY PROBLEMS

**NATURAL
ANTIBIOTIC
FREE**

SYNERGISTIC BLEND OF NATURAL SUBSTANCES

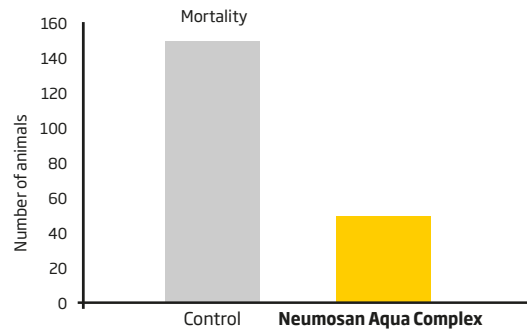

Neumosan is a product designed using natural substances protected by a lipid coating.

Neumosan is made with an advanced microencapsulation technique that gives unique protection and ensures the gradual release of the active compounds.

Some of its main components, thymol, eucalyptol, show a marked synergistic anti-inflammatory, antimicrobial and antioxidant effect.

Neumosan is a natural product that helps reduce the incidence of respiratory processes caused by bacteria and viruses.

- ▲ CAN BE USED ALONE OR COMBINED WITH OTHER PRODUCTS
- ▲ IMPROVES STRESS RESISTANCE AND PROMOTES THE WELFARE OF BIRDS

The application of **Neumosan Aqua Complex** to 250ml/1000L of drinking water showed a marked reduction in mortality in chickens, during the last week of life. Field test, farm of 13,000 chickens. 2017.

- ▲ The antimicrobial activity of its components is scientifically proven, making **Neumosan** a natural alternative for reducing the use of antibiotics

soluble
in
water

TARGET SPECIES

birds

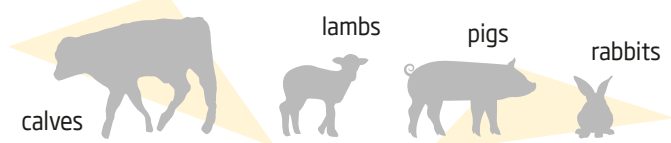

calves

lambs

pigs

rabbits

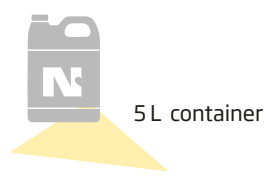

PRESENTATION

- ▲ **NEUMOSAN COMPLEX ruminants**
300 - 800 g/t feed

- ▲ **NEUMOSAN AQUA COMPLEX**
200 - 250 ml per 1,000 liters of drinking water

- ▲ **NEUMOSAN NÚCLEO**
100 - 150 g/t feed

Veterinarians and Nutritionists experts in dairy ruminants
